

Global Feasibility Lead (COPM)

Job ID
REQ-10041889
Feb 24, 2025
Ireland

Summary

As a Global Feasibility Lead, you will oversee and coordinate early modeling viability assessments, global feasibility assessments, recruitment projections, and allocation strategies for assigned trials and programs

This role is based in Ireland / Dublin in a hybrid working approach

About the Role

Your Key Responsibilities

- Analyze various data sources, including clinical trial data, historical performance, publications, epidemiology, clinical trial and commercial landscape, etc.
- Provide modeling and viability analysis to support early recruitment projections and clinical trial planning
- Conduct end to end clinical trial feasibility in collaboration with the country feasibility managers, clinical trial team and medical teams
- Propose optimal country and site allocation, including associated risks and opportunities in alignment with the global program strategy
- Provide feedback on study design based on available data and feasibility insights

Your Experience:

- Degree in Life Sciences or related scientific discipline
- Minimum 3 years pharmaceutical clinical drug development experience
- Solid understanding of all aspects of clinical drug development with particular emphasis on clinical trial design and trial execution
- Demonstrated experience in data driven feasibility for global clinical trials
- Ability to collaborate in a matrix environment
