Summary

#LI-Hybrid

We are looking for a dynamic Principal Infrastructure and Utilities Engineer (m/f/d) to join our team! This pivotal role involves providing cutting-edge technical expertise and governance for Global Technical Services (GTS) in infrastructure and utility (clean & black) engineering technology. You will lead the application of these technologies to facilities and major international investment projects, ensuring state-of-the-art operational, quality, safety, and investment objectives on a global scale. Your work will also support compliance with external statutory and regulatory requirements, as well as uphold the highest internal standards within your area of responsibility. Additionally, you will provide external benchmarking of new technologies in the market, act as an energy manager advisor, lead programs for energy, waste, and water reduction, and introduce new technologies to achieve the company's environmental sustainability targets.

As the leader of the Best Practice Network (BPN) for clean utilities, you will spearhead the development, application, and governance of technical standards. You will be at the forefront of monitoring and benchmarking technical equipment, providing strategic direction for future equipment initiatives.

Iščemo dinamičnega Vodilnega inženirja za infrastrukturo in opremo (m/ž/d), ki se bo pridružil naši ekipi! Ta ključna vloga vključuje zagotavljanje vrhunske tehnične strokovnosti in upravljanja za Globalne tehnične storitve (GTS) na področju inženirske tehnologije infrastrukture in komunale (čiste in nečiste). Vodili boste uporabo teh tehnologij za objekte in večje mednarodne investicijske projekte, pri čemer boste zagotavljali najsodobnejše operativne, kakovostne, varnostne in investicijske cilje na globalni ravni. Podpirali boste skladnost z zunanjimi zakonskimi in regulativnimi zahtevami ter vzdrževanje internih standardov na vašem področju odgovornosti. Poleg tega boste zagotavljali zunanje primerjanje novih tehnologij na trgu, delovali kot svetovalec za energetske upravljanje, vodili programe za zmanjšanje porabe energije, odpadkov in vode ter uvajali nove tehnologije za doseganje okoljskih trajnostnih ciljev podjetja.

Kot vodja Mreže najboljših praks (BPN oz. Best Practice Network) za čiste komunalne storitve boste vodili razvoj, uporabo in upravljanje tehničnih standardov. Bili boste v ospredju spremljanja in primerjanja tehnične opreme ter zagotavljali strateško usmeritev za prihodnje pobude na področju opreme.
