

# Sr. Specialist Data Analytics DSAI - Power Platform developer (PowerBI / PowerApps / PowerAutomate)

Job ID  
REQ-10044615  
Mar 20, 2025  
Czech Republic

## Summary

We are seeking a Sr. Specialist in Data Analytics DSAI who will be an expert and responsible for software engineering and solution configuration. The ideal candidate will design, develop, and deploy applications on Power Platform (PowerBI / PowerApps / PowerAutomate) across various business areas including Manufacturing, Quality, Supply Chain, Procurement, and Facility Management. They will ensure timely, secure, and quality delivery of applications while engaging effectively with stakeholders to deliver business value.

## About the Role

### Role responsibilities:

- Design, develop, and deploy solutions using the **Microsoft Power Platform suite**, including Power Apps, Power Automate, and Power BI in areas such as Manufacturing, Quality, Supply Chain, Procurement, and Facility Management.
- Actively contribute to the on-time, within-budget, compliant, secure, and quality delivery of applications.
- Engage effectively with stakeholders and collaboratively strive to deliver business value.
- Contribute to enterprise-grade and state-of-the-art solution design and architecture, maximizing re-usability, configurability, and scalability.
- Ensure top-class engineering delivery, code management, and automation, striving for the highest efficiency.
- Utilize efficient DevSecOps practices for platforms, products, or systems, ensuring availability and optimal performance.
- Follow industry trends and emerging practices to drive agility, speed, efficiency, and effectiveness.
- Ensure the overall user experience is considered when designing and deploying new solutions and services.
- Adhere to Security and Compliance policies and procedures, as well as other Novartis guidelines and standards

### Role Requirements:

- 3-5 years of experience with Power Platform development tools ((PowerBI / PowerApps / PowerAutomate) delivery and operation. This includes hands-on experience in designing, developing, and deploying applications using these tools.
- Experience in digital product development management and delivery, demonstrating the ability to manage the lifecycle of digital products from conception to deployment.

- Experience working in a multi-national context and across countries, showcasing the ability to collaborate effectively with diverse teams and stakeholders.
- Proficiency in Power Automate and PowerBI tools, with a deep understanding of their functionalities and best practices for implementation.
- Experience with Agile/Scrum delivery methodologies, including the ability to work in iterative cycles and manage sprints.
- Strong business partnering skills, enabling effective collaboration with business stakeholders to understand their needs and deliver solutions that add value.
- Expertise in change management, ensuring smooth transitions and adoption of new technologies and processes within the organization.
- IT service delivery experience, with a focus on maintaining high standards of service quality and performance.
- Performance management skills, including the ability to set and track key performance indicators (KPIs) and drive continuous improvement.
- Proficiency in English, both written and spoken, to effectively communicate with global teams and stakeholders.

**You'll receive:**

Monthly pension contribution matching your individual contribution up to 3% of your gross monthly base salary; Risk Life Insurance (full cost covered by Novartis); 5-week holiday per year; (1 week above the Labour Law requirement) ; 4 paid sick days within one calendar year in case of absence due to sickness without a medical sickness report; Cafeteria employee benefit program – choice of benefits from Benefit Plus Cafeteria in the amount of 12,500 CZK per year; Meal vouchers in amount of 105 CZK for each working day (full tax covered by company); Public Transportation allowance; MultiSport Card, Employee Share Purchase Plan.
