

Our Mission and Vision

Our mission is to discover new treatments to improve and extend people's lives. We use innovative science and technology to address some of the most challenging healthcare issues of modern society.

We discover and develop breakthrough treatments and find new ways to deliver them to as many people as possible. Our medicines are available in 155 countries across the globe.

Our vision is to be a trusted partner in the development and manufacturing of medicines. We put emphasis on the fair and principled treatment of our employees, business partners, government agencies, patients and the public.
