

Novartis in the world

Novartis is reimagining medicine to improve and extend people's lives. As a leading global medicines company, we use innovative science and digital technologies to create transformative treatments in areas of great medical need.

In our quest to find new medicines, we consistently rank among the world's top companies investing in research and development. We have our research centers „Novartis Institute for BioMedical Research“ (NIBR) located on several sites around the world, in Europe, the USA and Asia. Our portfolio consists of innovative treatments, oncological therapies and generics. Our products reach more than 800 million people globally and we are finding innovative ways to expand access to our latest treatments.

The global headquarters of the company is located in Basel, Switzerland. About 109,000 people of more than 140 nationalities work at Novartis around the world.
