Περίληψη

LDC (Lean Digital Core) is a multi year digital transformation program at Novartis. We are looking for a talented SAP Vistex professional to join our core team to provide technical guidance and lead developments in the area of Vistex for our multi country rollout projects .This role requires a deep understanding of Vistex functionalities and the ability to apply the knowledge to meet business requirements .

About the Role

Major Accountabilities

- Responsible for Developing and maintaining end-to-end Vistex solutions within S/4HANA to manage Pricing, Rebates, Chargeback, Incentives and other related process.
- As a Vistex Technical Expert candidate is expected to own deliverables and milestones across organization to support Novartis LDC Program in areas of Vistex for multiple countries and parallel rollouts.
- Will be responsible for working with Core Functional and Business Teams to understand the user requirements and translate them into technical solution.
- Should have in depth knowledge in transactional and composite process including but not limited to BADIs and interfaces.
- Proficient in proforma calculations, deals, approval workflows
- Responsible for developing effective and scalable code keeping performance in mind.
- Proficient in analysis and debugging of Vistex for timely resolution of defects during Testing phases.
- Will be responsible for reviewing the developments done by the Vendors/Different teams and ensure solutions delivered by them meet the quality standards of Pharma Industry.
- Take accountability to ensure adherence with Security and Compliance policies and Procedures of Novartis
- Take ownership, lead associates from different teams and ensure close collaboration between all necessary organizations and parties to meet the organization milestones with respect to Vistex for parallel releases.
- Should support in optimizing Vistex transactional processing and improve system performance.

Minimum Requirements

- University degree in business/technical domains or equivalent proven experience & certifications in the field
- Proven track record of broad industry experience and excellent understanding of complex enterprise IT landscapes and relationships
- 12+ years of relevant SAP Vistex experience.

- Implementation experience in V4 Vistex is a must with strong expertise in Vistex module.
- Excellent problem solving skills and ability to work in cross functional/Multi-Vendor environments

Why consider Novartis?

769 million lives were touched by Novartis medicines in 2022, and while we're proud of this, we know there is so much more we could do to help improve and extend people's lives. We believe new insights, perspectives and ground-breaking solutions can be found at the intersection of medical science and digital innovation. That a diverse, equitable and inclusive environment inspires new ways of working.

We believe our potential can thrive and grow in an unbossed culture underpinned by integrity, curiosity and flexibility. And we can reinvent what's possible, when we collaborate with courage to aggressively and ambitiously tackle the world's toughest medical challenges. Because the greatest risk in life, is the risk of never trying!

Imagine what you could do here at Novartis

Why Novartis: Helping people with disease and their families takes more than innovative science. It takes a community of smart, passionate people like you. Collaborating, supporting and inspiring each other.

Combining to achieve breakthroughs that change patients' lives. Ready to create a brighter future together?
