

Assoc. Director - Mulesoft Lead

Job ID
REQ-10050769
Jun 09, 2025
India

Summary

Location: Hyderabad

This is an exciting opportunity for you to shape how digital services are designed and delivered in a high impact environment, helping us to reimagine medicine!

About the Role

Major accountabilities:

- Ensure adherence to Security and Compliance policies and procedures.
- Lead MuleSoft development teams in designing and implementing scalable, high-performance Mulesoft integration solutions.
- Provide technical mentorship to junior developers, ensuring adherence to coding standards and fostering continuous learning.
- Collaborating with cross-functional teams to gather requirements and implement integration solutions.
- Ensuring the security, scalability, and performance of Mulesoft applications. Developing Mulesoft integration applications using Anypoint Studio.
- Creating API specifications and implementing API designs. Translate complete and accurate requirements into detailed technical designs, develop and unit test robust integration services.
- Collaborating with stakeholders to understand integration requirements. Conduct peer reviews of developed solutions and maintain formal documentation, promoting code review processes and knowledge sharing
- Take accountability for the quality of the software build ensuring alignment with both security and compliance policies and procedures.
- Utilize DevOps practices to support deployment of your software into project environments.

Minimum Requirements:

- Proven experience in Mulesoft development and integration projects.
- Strong knowledge of Mulesoft Anypoint Platform and API management.
- Understanding of RESTful APIs, JSON, and XML. Expertise working with Mulesoft Cloudhub and RTF, persistence gateway, API Manager
- Familiarity with OAuth and JWT authentication mechanism
- Familiarity with DevOps practices and CI/CD pipelines, ensuring smooth and efficient software delivery and deployment.
- Has working experience with Salesforce/AWS connectors. Familiarity with Agile development methodologies, promoting collaboration, adaptability, and continuous improvement.

- Commitment to best practices, code quality, and maintainability, ensuring the long-term success of the software applications.
- Proactive attitude and ability to work independently, with excellent problem-solving skills and attention to detail. Excellent communication and interpersonal skills, enabling effective collaboration and teamwork.
- Bachelor's or master's degree in computer science or a related field is preferred, demonstrating a strong academic foundation in software engineering principles.
- Mulesoft developer certification is a must.
