

## Equipment Specialist I

Job ID  
REQ-10043675

May 06, 2025

Singapore

### Summary

As Equipment Specialist , you will be responsible to produce pharmaceutical products by executing assigned activities according to production schedule in compliance with the relevant GMP, work, operating, environmental and safety instructions and guidelines.

### About the Role

#### Key Responsibilities:

- Execution of all assigned manufacturing activities according to production schedule and in compliance with the valid GMP, work, operating, environmental and safety instructions and guidelines
- Batch record review on time
- Proper and timely cleaning, preparation and sterilization of the production equipment and production rooms

- Responsible for production area housekeeping (cleaning, tidiness, 5S)
- Sampling, aliquoting, distribution and performing of in-process controls
- Manage the consumables supply necessary for the proper functioning of operations (e.g. filters, resins, connections, bags, reagents, gas, WCB)
- Daily checks of manufacturing equipment, support devices and rooms
- Independent execution of complex setups and changeover of machine components / format parts
- First level support in case of any equipment issue
- On-the-job Equipment Operator Training

#### Essential Requirements:

- Minimum Diploma in Engineering or Sciences
- Proficient in English
- No prior experience needed but would be an added advantage
- High level of conscientiousness and care (documentation, order and cleanliness in the workplace)
- Technical and Processes/Products understanding and troubleshooting

#### Desirable Requirements:

- Team player with good team spirit
- Constructive way of working, flexibility, solution orientated, responsibility for your own work, deep understanding of quality
