Summary

Novartis is unable to offer relocation support for this role: please only apply if this location is accessible for you.

LDC (Lean Digital Core) will simplify the way we work and allow us to leverage data for digital innovation at scale. We will achieve this through a focus on high quality data at the core, supported by end-to-end enterprise processes and new technologies, including the transformation of our ERP backbone to S/4HANA and integrated digital solutions around it.

As a key player in our program, this role will be accountable for the Commercial design integration, build and deployment of SAP S/4HANA and integrated digital solutions (e.g., EDI, E-Invoicing platforms, e-commerce, PLM, AI/ML) in the area of Commercial Sales & Distribution and will be part of our “Lean Digital Core” team in Data, Digital and IT Organization in Novartis.

About the Role

Key Responsibilities:

- Own and drive Cross-Functional Design topics for Commercial area to make it ready for Process design teams to start doing analysis and provide a solution, through addressing all business requirements and opportunities while following Novartis architectural standards, quality and information security principles.
- Collaborate closely with the Global Process Owners (GPOs) and Enterprise Process Integration leads to own key design decisions and Key scope decisions to achieve standardized and simplified integrated solutions for business scenarios and variants in scope.
- Champion the standardization and simplification of design, minimizing the custom solutions only for cases where Novartis makes a difference in the market serving customers/patients.
- Liaise with Design leads across COM and other functions like Finance and Operations to make sure all relevant x-Functional info is shared bi-directional and tasks assigned to Commercial teams are achieved as per KPI.
- Manage/Assess the Demands coming as Projects from outside the LDC program via appropriate channels and partner with Demand committee to provide LDC Assessment.
- Manage Enhancements/Large Enhancements requests from live sites via Change Advisory board (CAB) scope board, liaising with GPO and Process Design teams.
- Contribute to the Enterprise Data Management (EDM_organization objectives outside LDC, for Commercial Data assets and processes with a governance of Data Quality rules framework.
- Assure consistency and traceability between user requirements, functional specifications, Agile ways of working and adapting to DevSecOps, architectural roadmaps, regulatory/control requirements, and smooth transition of solutions to operations
- Deliver assigned project work as per agreed timeline within budget and on-quality adhering to following the release calendars

Commitment to Diversity & Inclusion:

We are committed to building an outstanding, inclusive work environment and diverse teams representative of the patients and communities we serve.

What you 'll bring to the role:
