# Procure to Pay (P2P) overview

## Our Procure to Pay Process

The Procure to Pay process starts with the creation of a Purchase Order (PO) and ends with the payment of the invoice. Adherence to the following procedures will facilitate on-time payment of your invoices and will ensure compliance with financial and Sarbanes-Oxley requirements.

## How does Novartis operate its Procure to Pay Process?

For Novartis Company Codes, Procure to Pay is a process, which handles supplier invoices and supports the end-to-end processes.

## More detailed end-to-end Procure to Pay Process

### PURCHASE ORDER

A Purchase Order is a document that is issued by Novartis to a Supplier, indicating types, quantities, and agreed prices for products or services. In P2P, a Purchase Order is automatically generated after a Shopping Cart is fully approved. A PO is a commitment from Novartis to pay a supplier upon agreed terms mentioned at the PO confirmation and once delivery of goods/services has been confirmed/rendered.

### PROOF OF DELIVERY FOR GOODS/SERVICES

If you are required to provide proof of delivery for any goods or services, please ensure these are communicated to your local business contact prior to invoice generation, in order to avoid any payment delay.

Examples of proof of delivery include time sheets, delivery notes and work schedules.

### INVOICE PROCESSING

For the time being Novartis Kazakhstan offers only manual invoice processing.

### PAYMENT STATUS

Invoices are paid within the agreed payment terms outlined in your Purchase Order and they are calculated from the date when invoice was received in our mailroom in Novartis Kazakhstan headquarter. To ensure proper payment, please provide your full bank data containing:

# Returning an invoice

## Why was my invoice sent back?

Invoices may be sent back to you for multiple reasons. The most common reasons for returned invoices are the following:

- Bank Details are missing
- PO number is missing or invalid/Cost object or Novartis contact employee name is missing
- PO referenced on the invoice is closed
- Address is wrong/wrong Novartis company code
- VAT invalid (invoices must mention the invoicing address and VAT number as mentioned on the PO as well as the supplier VAT number)
- Invoice is a duplicate

All potential reasons for a return of an invoice to be found here:

[Invoice Requirements & Invoicing Guidelines](#)

Non-acceptable invoice types:

- Quotes
- Estimates
- Proforma invoices

## What is the invoice rejection process?

Invoices are reviewed by our processing team for compliance check with the Novartis defined Invoice Requirements and Invoicing Guidelines and, based on this review the invoice may be rejected for the reasons referenced previously.

A notification is sent to the supplier via post or e-mail informing that the invoice is rejected due to one of the referenced reasons with a request to correct the invoice and resend for processing/payment.

Once new, correct invoice is received, it will be posted and paid according to due date. Payment terms are calculated based on invoice receipt date at Novartis mailroom in Novartis Kazakhstan headquarter.

# Communication sent to you
