

# Specialist DDIT IES Conferencing Engineering - AR / VR

Job ID  
REQ-10040927  
Mar 10, 2025  
Czech Republic

## Summary

Novartis is unable to offer relocation support for this role: please only apply if this location is accessible for you.

We are looking for an L2 Immersive technologies Engineer who has a strong foundation in Digital Signage and AR / VR platforms. The preferred candidate should have at least 2 years of experience and show relevant proven skills in handling Digital Signage solutions with some knowledge of AR / VR platforms as a benefit.

## About the Role

### Key Responsibilities:

- Develop, execute and sustain global standards for Digital Signage and AR / VR technologies
- Administer and maintain the relevant management platforms for digital signage and AR/VR, and be familiar with other conferencing platforms and related management tools.
- Assist and advise on how to fix problems with hardware and applications for the digital signage and AR / VR devices.
- Monitor and plan for the utilization and successful deployment of digital signage on a global scale.
- Review and unify the AR / VR needs and create E2E internal solution in collaboration with the conferencing department
- Work with other IT teams to ensure smooth integration of digital signage and AR / VR platforms into the overall IT experience.
- Work with other internal clients to ensure the reliability and availability of digital signage and AR / VR platforms.
- Support and propose the creation of documentation related to digital signage and AR / VR operations.
- Contribute to platform security initiatives and ensure adherence to security policies and standards. Maintain and develop the roadmap for additional features of digital signage.
- Stay informed of industry developments, trends and best practices related to Digital Signage along with AR / VR.

Commitment to Diversity & Inclusion: :

*We are committed to building an outstanding, inclusive work environment and diverse teams representative of the patients and communities we serve.*

**What you'll bring to the role:**

- Bachelor's degree in Computer Science or related field
- At least 2 years of experience in managing digital signage solutions.
- At least 1 year of experience with testing and implementing AR / VR solutions into business processes
- History of managing global solutions with a minimum of 2 years of experience
- Good skills in presenting, plus some experience in managing content

#### **You'll receive:**

Monthly pension contribution matching your individual contribution up to 3% of your gross monthly base salary; Risk Life Insurance (full cost covered by Novartis); 5-week holiday per year; (1 week above the Labour Law requirement) ; 4 paid sick days within one calendar year in case of absence due to sickness without a medical sickness report; Cafeteria employee benefit program – choice of benefits from Benefit Plus Cafeteria in the amount of 12,500 CZK per year; Meal vouchers in amount of 90 CZK for each working day (full tax covered by company); Public transportation allowance; MultiSport Card.
