#LI-Hybrid

This role involves managing gateway mail cleansing solutions, anti-malware, and spam. The specialist is responsible for interfacing mail technologies like SPF, DKIM, and DMARC, maintaining a stable environment using ProofPoint technologies, and supporting merger and acquisition activities related to O365 Exchange Platform integration. Additionally, the role includes providing fourth-level support for SMTP issues and ensuring effective collaboration and training for external support team members.

## About the Role

### Your key responsibilities:

- Responsible for gateway mail cleansing solutions, anti-malware, spam. For all interfacing mail technologies e.g. SPF, Dkim, Dmarc
- Responsible for maintaining a stable environment by leveraging ProofPoint technologies such as TAP, Imposter module, EFD, SER (email Fraud Defense)
- Supports merger and acquisition activities (i.e. O365 Exchange Platform integration and divestiture)
- Provides fourth level support and operations for all SMTP related issues. Provides daily support direction and communications to external support team members within area of responsibility.
- Ensure external support team members have appropriate trainings, processes and tools necessary to perform job functions. Monitors operations status and provides detailed reports as appropriate
- Ensure effective collaboration between team members and other support teams within the TIS organization (i.e. – issues, resolutions, planned service interruptions etc.)
- Reviews and ensures compliance of technical operating instruction manuals, system documentation, work instructions, processes, standards and procedures.
- Execute change management activities as required. Contributes/supports an environment which fosters a high-performance and innovative organization

### Your key responsibilities:

Commitment to Diversity & Inclusion: :

*We are committed to building an outstanding, inclusive work environment and diverse teams representative of the patients and communities we serve.*

## What you'll bring to the role:

- At least 6 years of IT experience in operations and system management tasks. Knowledge of PowerShell and scripting an advantage.
- 3+ experience in messaging including good knowledge of SMTP mail routing, DNS, MX records, SPF, Reverse Lookup etc.
- More than 3 year experience supporting a globally spanned (international) environment and 3 year proven leadership experience is a plus.
- Proven capability to work in an organization with direct and indirect reporting lines in a matrix set-up
- Ability to communicate effectively and motivate team members. Proven track record working with multinational teams Exposure to Office365 and Microsoft Exchange.
