REQ-10046740

Apr 04, 2025

Czech Republic

Summary

The Digital FRA D&A is responsible to drive the Novartis FRA data and analytics strategy in close alignment with Technology Transformation, ensuring delivery of best-in-class solutions to Novartis Management, allowing efficient process and data mining and also analyses of the business performance,

delivering on the Novartis Group objectives of Innovation, Growth, and Productivity.

Operationally, the team's purpose is to provide insight on finance processes to strengthen compliance, give early signals of risks and improve operational efficiency. The Group is responsible for managing compliance/performance reporting tools and associated analytics and anomaly detections.

This job requires a solid and multi-disciplinary finance background and Big Data analytics experience.

About the Role

Key Responsibilities:

- Manage multiple stakeholder demand translating and interpreting business needs into actionable requirements and into deliverable solutions
- Interact with internal customers as subject matter expert on process/data mining solutions
- Develop/design/build compliance and controls monitoring reports defined for the entities covered in the scope, ensuring compliance, output quality & defined conventions / standards.
- Implement process/data mining solutions but also develop predictive analytics on Finance Big Data capabilities
- Meet Digital aspirations to leverage best technologies, including AI
- Ensure high level of solution usability while meeting business requirements
- Deliver Process and mining service to internal stakeholders, and Operationalize robust standard processes supported by tools and systems, reflecting best practices, supported by a control framework
- Safeguard Novartis assets by enhancing financial control toolkit with modern technologies
- Provide actionable insights into the business processes with focus on improvement impact and value generation
- Meet Novartis digital transformational requirements, accelerate the time-to-value and drive measurable business outcomes

- Create and share customer success stories across Novartis
- Ensure relevant SOX requirements are met

Essential Requirements:

- Relevant years of working experience
- MBA (Finance) or Equivalent/University Degree
- Working experience with Process Mining Technology and in delivering Process Mining Projects (preferably leveraging Celonis)
- Experience in Big Data, predictive analytics and process/data mining
- Understand Finance Processes such as Order to cash, Source to Pay, Record to Report
- Knowledge of GAAP and IFRS accounting standards
- Excellent analytical ability with experience of creation and discussion of financial performance KPIs · Strong written and oral communication skills
- Experience with SAP BW, SAP BPC, Qlik Sense is must
- Experience in advance excel and MS-Office applications is must

You'll receive (Applicable for Prague)

Monthly pension contribution matching your individual contribution up to 3% of your gross monthly base salary; Risk Life Insurance (full cost covered by Novartis); 5-week holiday per year; (1 week above the Labour Law requirement) ; 4 paid sick days within one calendar year in case of absence due to sickness without a medical sickness report; Cafeteria employee benefit program – choice of benefits from Benefit Plus Cafeteria in the amount of 17,500 CZK per year; Meal vouchers in amount of 105 CZK for each working day (full tax covered by company); Car Allowance; MultiSport Card, Employee Share Purchase Plan.
