

# Technical Product Manager Digital Finance

Job ID  
REQ-10048614  
Apr 25, 2025  
Spain

## Summary

Location: Barcelona (Hybrid & Office)

Novartis is unable to offer relocation support for this role: please only apply if this location is accessible for you.

500! This is the number of Finance Digital challenges looking for a solution. We count on you to come up with best IT solutions and work with a high dedicated Finance Digital Product Team.

The role purpose is for Product delivery and/or operations in the given Finance business capability. Partner with Business Stakeholders and DDIT Business Partners for demand analysis, solution proposal/evaluation and project delivery.

## About the Role

Your responsibilities include, but are not limited to:

- Serve as the primary connection between Finance end to end Solution delivery and the Digital business for a given capability
- Analyze, refine and filter requirements for delivering the necessary technology service to business.
- Initiate and drive projects from conception to completion with minimal guidance. Establishes scalable, efficient, automated solutions for large scale data analyses, model development, model validation and model implementation.
- Solution Design of Finance system solutions in alignment with design and architectural standards, while meeting quality, performance, security and business requirements. Manage project teams in different locations.
- Own and Drive the end to end Technical Product Delivery.
- Ensure close coordination and seamless flow of communication and coordination across product layers i.e DB, API and frontend to achieve common goals and deliverables.
- Ensure IT services are aligned with business strategy, business objectives, business requirements, standards and regulations
- Responsible for architecting, designing, implementing, deploying, and supporting Databricks, Snowflake, PWA , .Net, mobile & web solutions to achieve defined business goals.
- Active support and collaboration with technical leads to ensure and design a sustainable, scalable and performance oriented data model to serve reporting needs.
- Act as Incident Manager, coordinating resolution across teams, ensuring SLA is met and working to reduce the number of incident.

- Coordinate and track with scrum master and dev team leads to ensure availability of the right tools, access and technical assets to ensure proper development of team members.
- Provide IT consulting to the capability stakeholders, educate them on IT processes and methodologies and drive adoption of global solutions
- Communicate complex data or algorithms into simple conclusions that will empower leadership to drive action based on the insights you derive.

## What you'll bring to the role:

- University working and thinking level, degree in technical computer science or information security area or comparable education/experience
- 10+ years of relevant professional IT experience in the related functional area
- Experience in Mobile/Web App architecture using PWA/hybrid strategies
- Proficiency knowledge and experience on project management and documentation tools like JIRA and Confluence.
- Experience on various data modeling frameworks, both for OLTP and datawarehousing OLAP solutions and db DevOps automation.
- Technical exposure to ETL orchestration tools like Airflow and Databricks workflows.
- Relevant software engineering experience using Python, Scala and SQL in a reporting-focused role
- Experience in designing, developing and deploying reliable and scalable Microservices for wide and complex domains
- Knowledge on technical and operational expertise with IT technologies like: iOS, Snowflake, Bitbucket or equivalent source code repository tool AWS foundational .
- Pluses: Experience with software development in any of the following frameworks: .NET Framework or .NET Core, NodeJS, Java
- Pluses: PMP, SM or equivalent certification.
- Demonstrates excellent communication and interpersonal skills; able to communicate clearly and concisely in a variety of settings and styles; is effective in a variety of formal presentation and meeting settings
